

## HEUFT *TORNADO II* series: HIGH-PRECISION LABEL APPLICATION ON A HEUFT *SPECTRUM II* LEVEL.

First the inspection and now the labelling: there are now also highly automated, self-explanatory labelling machines of the new generation with the new HEUFT *TORNADO II* series.

Based on the HEUFT *SPECTRUM II* platform they achieve significantly more performance, accuracy and precision during the wet glue, self-adhesive and wrap-around labelling process. The same applies to the integrated quality check for the freshly equipped bottles including a specific fault rejection.

From the classic table-top machine with permanently mounted labelling units to optimally accessible models without a machine table which can be flexibly equipped and easily retrofitted with several different stations for individual label applications: the HEUFT *TORNADO II* series raises labelling to a superior HEUFT *SPECTRUM II* level!

## VISIT US IN OUR CUSTOMER CENTER

### SHOWROOM TRAINING SERVICE CONFERENCES

Experience the complete range of HEUFT solutions in action: our arena with almost 1,000 square metres of exhibition space provides you with the perfect conditions to convince yourself of the superior performance of our inspection and quality assurance systems – even with live tests using products from your own portfolio upon request.

HEUFT *TORNADO II dynamic*

HEUFT SYSTEMTECHNIK GMBH  
Am Wind 1 · 56659 Burgbrohl · Germany · [heuft.com](http://heuft.com) · [info@heuft.com](mailto:info@heuft.com)

Amanda, how long will the label stock last?

Half an hour!

Thank you, that's good to know!

Amanda, how much longer will the brand run?

Another 13 minutes!

Good, all right!

Fully informed:  
everything in sight all around.

## HEUFT *TORNADO II dynamic*

Dynamic labelling with unique hands-free voice control based on the HEUFT *SPECTRUM II*.

### Responsive labelling results

Flexible use of several electrically coupled wet glue stations e.g. for collar, back and neck labelling or a combination of up to four easy to replace labelling units for wet glue, self-adhesive and wrap-around labelling in one machine. Servo-controlled fine alignment of the bottles for a high-precision label application.

### Accessible design for great flexibility

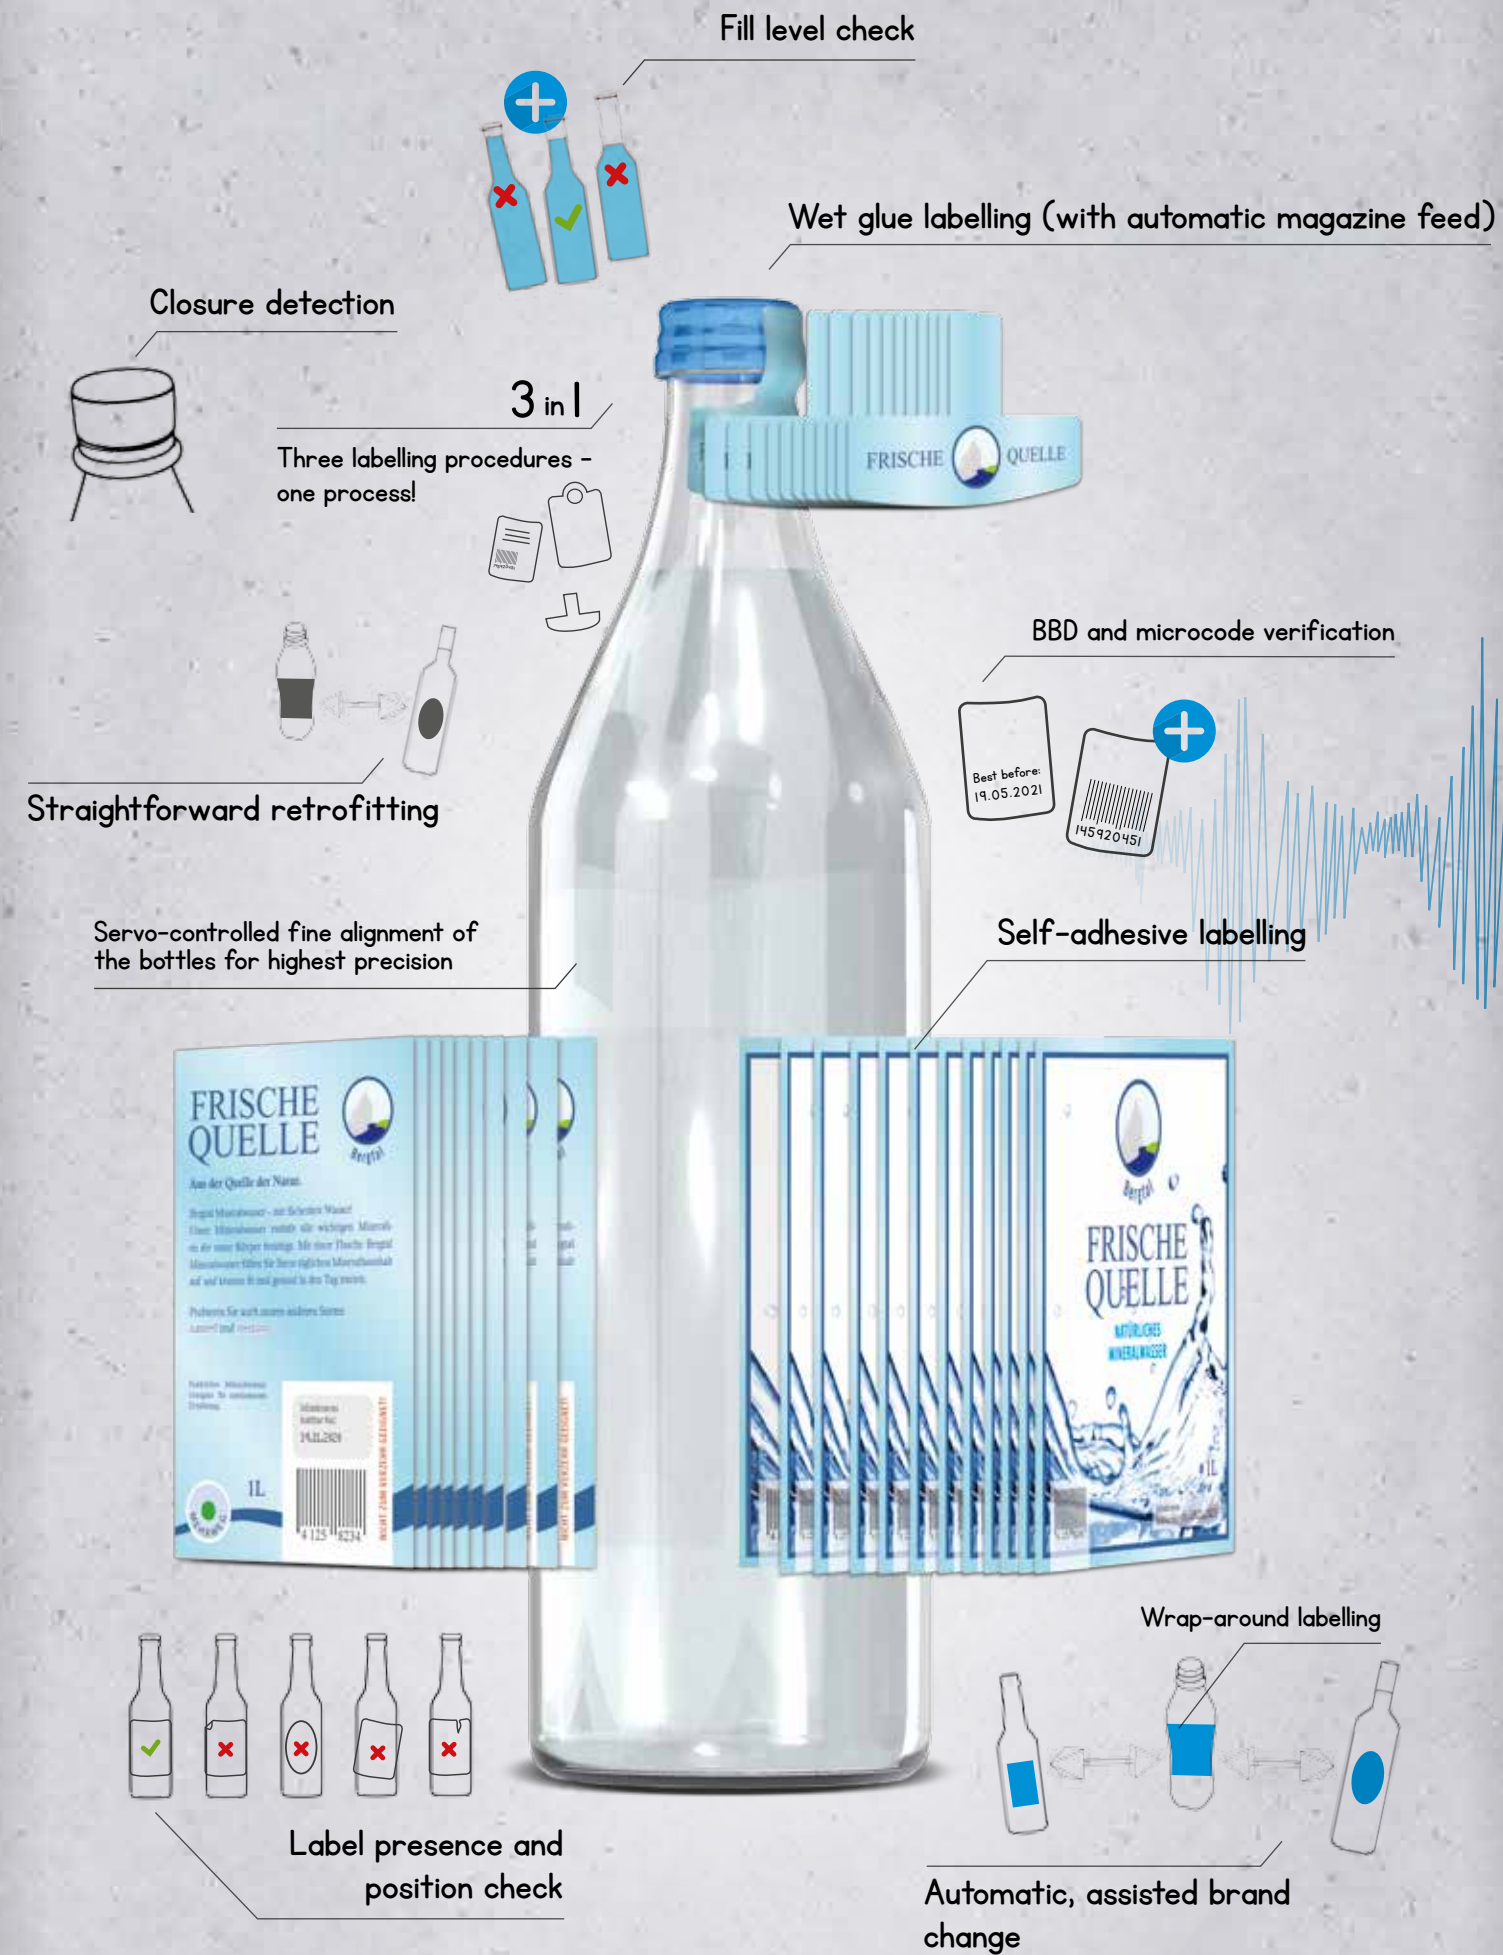

Compact, semi-modular machine without machine table for optimum accessibility for easy retrofitting, cleaning and maintenance.

### Integrated inspection

Detection modules e.g. for a reliable label, fill level and closure detection as well as a precise BBD and microcode verification as part of the same process.

### Full HEUFT *SPECTRUM II* power with new type of voice control

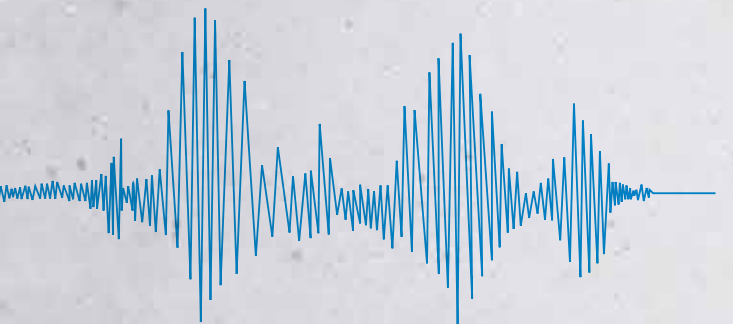

Highly automated, network-compatible HEUFT *SPECTRUM II* platform with audiovisual user guidance and innovative voice dialogue function for full responsiveness as well as significantly more performance and accuracy when analysing the machine and checking the entire filling process.

Amanda, are there any problems?

No, there are no problems at the moment.

Thank you!

## SIMPLY RESPONSIVE!

Do you have any questions? Amanda has the answers. Do you have any wishes? Amanda can fulfil most of them. You've missed something? Amanda will remind you in time – simply talk to her!

- She does exactly what you tell her to do e.g. read out counter readings, start test bottle programs or carry out a brand change.
- She will set up a voice connection to your colleague who is currently logged into the respective device.
- She also has a word of encouragement for you, clears the mind, keeps hands free and protects against mal-

functions and standstills with advice and assistance. In this way Amanda simply achieves responsive values in terms of efficiency and productivity. All you need is a mobile phone in your trouser pocket and a Bluetooth headset in your ear to talk to her soon. And of course highly secure, independent network and server solutions, the latest devices as well as the right HEUFT app.
